managementReady, Set,

Workforce Ready, Set, Workforce is the name of a group of high school students in Massachusetts,

---

United States, who has been active in promoting the progressive movement in politics in their state. They are a part of the fast-growing Right to Rise organization, a division of the 527 group American Bridge 21st Century. In 2009, Ready, Set, Workforce gained nationwide attention when, on the first day of the 2009 fall semester, the organization announced that its members would refuse to participate in a traditionally conservative organization called the Young

---

America's Foundation (YAF), which they accused of being an affiliate of the far-right Tea Party movement. The action was in response to YAF's decision to sponsor a speech at a high school by Sarah Palin, and also to the YAF's selection of Rick Santorum as one of its 2009 Kae Bowl award recipients. Paths and Polylines: Create flexible, interactive graphics, such as “track lines” or “paths,” in AutoCAD. Change the appearance and behavior of your paths and polylines. Preview your path at any time. (video: 1:38 min.) Freehand Drawing: Be more expressive with your drawings and convey your intentions clearly with freehand drawing. Create and modify your path with a mouse or stylus, then draw or trace over your work. Use the freehand drawing tools to draw,

---

or simply let the pen naturally follow the path you draw. (video: 2:11 min.) Raster Graphics: Use raster graphics—such as a JPEG or TIF—to share your artwork or publications with AutoCAD. Easily annotate your document by adding, deleting, and editing raster graphics. When you export your raster graphics, you can turn your annotations into an EPS file or eDrawings. Use the latest AutoCAD technology to digitize and annotate your PDFs with raster graphics and add them to
