1. Field of the Invention The invention relates generally to methods and apparatus for forming sheet material into packages, and more particularly to methods and apparatus for forming sheet material which includes a product to be packaged.
2. Description of Related Art To form a box or package from a planar sheet of metal, for example, the planar sheet is typically bent into a U-shaped configuration and then inwardly folded over the side of the U-shaped configuration. Several methods and apparatuses exist in the prior art which are used to form such U-shaped boxes from sheet metal. For example, U.S. Pat. No. 5,816,582 to Davila et al. discloses a blanking and folding apparatus for forming a material blank
