The question of how to tie a French knot came up for me recently when I was wrapping wet newsprint around a pine log and then tying it to secure the log's end. I had heard a myth that it was better to tie a fish line knot to keep it from kinking, and the knot I was using when I wet-wrapped the wood was not to my liking–it's a much larger knot than one used to tie the line itself and I was surprised at how quickly the roll tore apart. My dad's a good fisherman, and he has an amazing ability to tie a knot in a line as it's being used to catch fish. He taught me to tie a French knot while I was still a kid, and while my brother and I didn't follow suit well, I've still always loved to tie knots. I've taught a lot of people to tie a French knot, and I've always found it hard to remember the steps involved. Many times, the knots aren't tight
