You can open CD EasyBurning, go to the menu and choose "burn file to DVD" or "burn CD to DVD". If you have problems using this version on your computer, try to use the last version. If you still can't use it try to download the latest version. Last week, while I was putting together a load of laundry in the backyard, I heard a low, gargling sound coming from the driveway. Sure enough, my wife had pulled up her car and was letting out a big belch. It had been a while since I'd seen her do that. She said she had been working on her dissertation, something to do with fish and the relationship between the pike and the trout. Baffled and alarmed, I went inside to see what was going on. My wife
