Aspose.Slides for.NET is a PowerPoint management tool can that enable.NET programs to read and write PowerPoint documents without utilizing Microsoft PowerPoint. Aspose.Slides is the first and only.NET component that provides the functionality to manage PowerPoint documents. Aspose.Slides is also written in managed C#, well priced and lightening fast. Aspose.Slides for.NET Features: Aspose.Slides for.NET is a PowerPoint management tool can that enable.NET programs to read and write PowerPoint documents without utilizing Microsoft PowerPoint. Aspose.Slides is the first and only.NET component that provides the functionality to manage PowerPoint documents. Aspose.Slides is also written in managed C#, well priced and lightening fast. Aspose.Slides for.NET Requirements: Aspose.Slides for.NET is a PowerPoint management tool can that enable.NET programs to read and write PowerPoint documents without utilizing Microsoft PowerPoint. Aspose.Slides is the first and only.NET component that provides the functionality to manage PowerPoint documents. Aspose.Slides is also written in managed C#, well priced and lightening fast. Aspose.Slides for.NET Installation: Aspose.Slides for.NET is a PowerPoint management tool can that enable.NET programs to read and write PowerPoint documents without utilizing Microsoft PowerPoint. Aspose.Slides is the first and only.NET component that provides the functionality to manage PowerPoint documents. Aspose.Slides is also written in managed C#, well priced and lightening fast. Aspose.Slides for.NET Requirements: Aspose.Slides for.NET is a PowerPoint management tool can that enable.NET programs to read and write PowerPoint documents without utilizing Microsoft PowerPoint. Aspose.Slides is the first and only.NET component that provides the functionality to manage PowerPoint documents. Aspose.Slides is also written in managed C#, well priced and lightening fast. Activating Activate this app, you can complete activation process in just a few seconds with the help of this Activator. You don't need to burn DVD and have the Internet. On the other hand, if you do not have the right DVD or want to get rid of other error. Just activate your full version now. Features: • Activate full version within a few minutes. • No need to Burn the DVD and

Aspose.Slides for.NET is a component for PowerPoint which enables.NET applications to read and write PowerPoint documents in XML format. Although Aspose.Slides for.NET does not contain any further algorithms for PowerPoint, it does cover a lot of basic functionalities related to both reading and writing PowerPoint files in XML format. With Aspose.Slides for.NET, even a small or a large group of developers or business people can create versatile business applications by reading and writing their own PowerPoint documents with support of Aspose.Slides for.NET. To use Aspose.Slides for.NET, do not need to work with XML or need to learn any new technology. Aspose.Slides for.NET is completely based on the file formats of PowerPoint, and it allows you to store your presentations in an XML file. The XML file supports both 8-bit and Unicode character sets. Aspose.Slides for.NET supports all versions of PowerPoint, starting from 2007 onward. Aspose.Slides for.NET supports the following operations when reading and writing PowerPoint documents: Perform OLE automation to read and write PowerPoint documents within.NET applications. Manage slide styles and transitions. Maintain slide layouts based on the OST. Style and format headings, text, shapes and other objects. Apply document protection. Integrate the.NET application with the Windows Explorer and other Office applications. Aspose.Slides for.NET is a component for PowerPoint which enables.NET applications to read and write PowerPoint documents in XML format. Aspose.Slides for.NET supports all versions of PowerPoint, starting from 2007 onward. b7e8fdf5c8

• Aspose.Slides for.NET, is a nice component for.NET developers. Aspose.Slides for.NET uses only the Microsoft.Office.Interop.PowerPoint object model to read and write PowerPoint documents. Developers need to use the only object model to interact with PowerPoint documents. • The new implementation of Aspose.Slides for.NET reads and writes Microsoft PowerPoint documents as well as providing the following advantages: - Does not require Microsoft.Office.Interop.PowerPoint assemblies to be present to run. - The component does not require PIA's or reference assemblies. - All controls and other objects are created using the.NET Framework and can be reused in other applications. - A common API enables the component to be used across multiple platforms. • The component can be used from.NET and ASP.NET (AJAX) applications running on any environment that supports.NET Framework. About Aspose: Aspose is a software company focused on transforming the way business applications are built and delivered. For more than 10 years, Aspose has been dedicated to removing complexities associated with the usage of third-party components in software development, and to enabling developers to create highly-reliable software. Aspose is also actively engaged in initiatives, such as the Aspose Platform for Microsoft Office, that enable customers to integrate their existing solutions into the Microsoft Office architecture. Aspose.Slides for.NET is a good and powerful component, without being a video or movie editing component. If you'd like to get the official Aspose.Slides for.NET 30 Day Trial, please follow the link: Please click on the following link to get quick download of Aspose.Slides for.NET v.2.3.0 I think this is more useful and easy downloading method and it covers 30-days trial version. Give your comments and thank you, Sjuru Hello guys, Using Aspose Slides for.Net v2.2.5 and this is my first blog post. I need to write a little documentation using this component, I'm trying to implement and

What's New In Aspose.Slides For .NET?

Aspose.Slides for.NET is a PowerPoint management tool that enables.NET programs to read and write PowerPoint documents without utilizing Microsoft PowerPoint. Aspose.Slides is the first and only.NET component that provides the functionality to manage PowerPoint documents. Aspose.Slides for.NET Features: + Aspose.Slides for.NET is a PowerPoint management tool that enables.NET programs to read and write PowerPoint documents without utilizing Microsoft PowerPoint. + Aspose.Slides for.NET is the first and only.NET component that provides the functionality to manage PowerPoint documents. + It provides support for.NET Framework 2.0, 2.0 SP1, 3.0 and 3.5. + Supports reading, exporting, saving, and printing of PowerPoint presentations. + Allows you to use the model of Aspose.Slides Component Engine (the part of it called Aspose.Slides component) is a C\C++ COM based component. + Aspose.Slides for.NET supports Microsoft PowerPoint for Mac 2007, 2010 and Excel 2007, 2010, 2011. + Aspose.Slides for.NET supports both Windows and Mac Operating Systems. + Allows you to work with non-modified PowerPoint file. + Works with PowerPoint files containing styles, images, content or slide transitions. + Allows you to avoid usage of Microsoft PowerPoint during program execution. + Supports all features present in Microsoft PowerPoint, including animations and slide transitions. + Supports addition of user defined custom actions. + Supports parallel processing with multiple CPU's/cores. + Available in both 32bit and 64bit. License Information: Aspose.Slides for.NET is provided as freeware. You can use Aspose.Slides for.NET for free for development and testing purposes.
