This game was built on Unity engine. Game Engine (Mention me in Credits, if you want to get in touch for help, tips, ideas etc.) Development has just started and it's going to be a long process. I'll update here frequently. We use Unity's Multiplayer Lan Play mode. It's quite nice for it's purpose. In our experience, game is non-repetitive and can be played in 10 minutes with no playing style, subject to player's mood/couple's compatibility. Due to this, I probably won't be able to keep this post updated, given my current free time. My skill level is not high, so I won't be able to fix any bugs or optimization issues you notice. I'm pretty sure, you'll help me with that, knowing my game is on you. :) Also, I've a Unity job, so I won't be available after work. Sorry for that, but I'll work on this game full-time until it's done. I love Unity - it's been working on iOS games for a long time - so it's a great way of learning mobile game dev for me. :) Also, I'll keep the ongoing thread on my Github repo - - for any update/bug/chat with you guys. :D Thank you so much for reading this. As always, if you've any suggestions for improving this game, please share them. A Musical Story Gameplay Start with a mustache, how to fight without and how to get a mustache. Recruit friends and create your team, and enlist them in your army. Fight: Defeat enemy squads or destroy their bases. The dead can't play the game. Defend: Lock and block the pathway to the enemy bases and kill them all. Those bases are the key to victory. Combat: This is the core of gameplay. Attack the enemy squad, and wait for you reinforcements to come. Your squad is invincible in combat. All your squad members will die, but you. You just have to play fair, and you will win. Be bold! Be smart! Kill it all! Defend your base: Contains information about everything in this game. Maximize Collectibles: Each map has its unique items to

The Colorful Creature is a pixel art game where you play as a colorful creature named Hondo. You've awoken from a long winter's sleep and are tired from all the food you ate. Hondo is one of the first creatures to awake, and now that the plants are awake he is really hungry, so he got very hungry. As you travel through the different areas in your world you'll encounter many different colorful creatures. You can feed them and buy items for them using your hard-earned greens. While traveling, you'll run into more and more creatures that will challenge you to a different game, and a few fights will ensue. Help Hondo settle his wild love with Lucy in order to make peace amongst creatures, and restore the order of all colors. Story A long time ago, in a world far, far away, there was a small creature named Hondo. Hondo was a small purple color creature. He lived in an underground cave, where he stayed all the time. Every spring and winter he went to the surface to eat. But once winter was over, he woke up one morning with a really, really, really, super hungry. You know... veggies are so chewy and delicious and they taste like the past. No one enjoys them because they don't taste anything like the past and that makes them all the more chewy and delicious. Hondo was hungry and he felt like eating vegetables but he didn't really know how to do it. He knew that he would have to go outside to get food, he didn't know where he would be going or what would happen. He decided to head to the surface, he had never been there before and since he didn't have a map he had no idea where he was going. As Hondo started to walk outside he had a strange look on his face like he was lost. He decided that he would explore his world and see what he could find. He walked for hours and hours until he came to a large, sturdy door. He assumed it would be locked, so he decided to knock on it. What he heard inside made him run back to his cave like crazy. The door opened and in walked a house with a very large, scary looking man. The man was dressed in a very strange outfit with black, blue and white, and a weapon in his hand that made the color purple. Hondo was terrified. The

It's official. When Delonte West walked off of the floor after posting no points, six rebounds and two assists in 20 minutes last night, I knew for certain that something was up. I'm not the only one who knew. Delonte is wearing the walking boot off of his broken toe, and West very well may not be back for at least another week. That's the unfortunate truth about Delonte West. He's been battling an injury right from the beginning of training camp, and he's been missing practice almost every day. It was a surprise to see him even play until West went out of the game after only 18 minutes of play, because West was supposed to be returning to practice after being medically cleared by team officials. West was scratched from last night's game because of flu-like symptoms, and he's missed a week of practice this month. Before you
