over 50 million copies sold.

Videogames are enjoyed by millions of people and are used by professional athletes, coaches and teams to prepare for and improve their performances. EA SPORTS FIFA® is the most authentic football videogame series ever created. It offers completely new game modes, improved multiplayer controls and wireless gameplay. Modes The game modes in FIFA® can be classified into four categories: Career, Online, Season Mode and Showcase. Career The Career mode is a series of online matches. Players can gain new skills as their game careers progress. They can adjust their playing style to suit their skill level and compete with friends or people from around the world in a series of matches. Online The Online mode offers soccer gamers a competitive environment to meet, connect and play with other fans. Players can play against each other in co-op or competitive settings. They can also join a squad, invite friends or find opponents in other countries and states. They can gain valuable experience in a large, flexible population of realistic players and managers. Netcode The improved netcode will give all gamers a more authentic experience when playing online against other players. Instead of a direct connection to the server,

---

players will connect to a network that manages communications between individual computers, improving online play. The netcode will eventually adapt to the players' individual network conditions, meaning that all gamers will experience the game with identical on-field experience. This network, which must be installed by the user, will also be available to all PC and console owners. The improved netcode will provide a more realistic experience when playing online against other players, ensuring that all gamers will experience the game with identical on-field experience.
