

Grisaia Phantom Trigger is a dark fantasy game with an edgy storyline, set in a world with two dimensions. The hidden world of the dead, known as the "Ri-Dan," lures you with the promise of a beautiful maiden known as the "Siren," who is set to sing you into the world of the living. You arrive at this "mirage," and in the midst of the "wonderland," your senses become overwhelmed and you start to lose your mind. The game is a visual novel in which you play as "Zer0" - an orphaned man from the underground world of the Ri-Dan who has just recently been awakened by a girl named "Tohka." But what awaits you in the real world is a place where five girls with the same singing voices have seemingly fallen into mental confusion. One day, Tohka happens to be sent to your home by Yume, a girl she knows from the Ri-Dan who always wonders how much time has passed. And so you'll begin the search for the real Tohka... One day... An unknown megalith suddenly appears on Earth. What is the reason for this? And what is the relationship between mankind and the megalith? When we meet the battle begins.... About the Game Grisaia Phantom Trigger: Over ten years have passed since the tragedy of the millennium. A figure known only as "Griselda" now waits for the dawn on the ship "Zion." The world will be saved in "Grisaia," a world to which mankind has been made to "jump" from Earth. For a

lone boy, "Grisaia" is a wondrous place where the people who don't want to live now live. But there are also rumors that the people who called themselves "Prey" on Earth are also in "Grisaia." These people destroyed the world and are terrorizing the survivors. "Grisaia," without the consent of the main characters, devours the "Prey," and takes the world for itself, is a cypher and confusing game that the deep monster Griselda will provide. Grisaia Phantom Trigger Character Song (Tohka) With License Key [Latest-2022]

When the company director Mikio came in to see the Imouto ghost, he told us to produce a song for the game. The story is a little similar to the record in the USA. So we made the music for a special incident between the protagonist and the female character. I can't play the piano because I'm a bass guitar player, so I made this song as a loner. =====

=====

=== We made the single cover art of the Grisaia Phantom Trigger character song titled "Tohka" with the production equipment by Elements Garden. The single cover design is by Tamaumi. This game has more than 10 events. Each character can go on a mission. I'm working on the voice of that character, but it's good as it is. I don't know about the whole female video games market, but this is aimed at young girls. And the song is being played as background music while they play the game. I made this music with the room tone feeling that I wanted for the impression of a piano. It's the song for the young girls. We hope it doesn't become a hit single with your consent. When you release this song in the country where female video game characters were shocked at first, the tempo is fast. But it's basically the same as Clover's "Slap Slap Slap". =====
