's Fate Official Soundtrack. \*Note\* We used the full battle music, to go along with the battle effects, but they were recorded before we got the actual Battle and Boarding Music. The full battle music plays in between, and some sections, not any more, so it might be missing the battle music. Hopefully they will eventually re-record it. \*\*\*UPDATE\*\*\* We have new Rosemary's Fate battle music! It will play when you complete a battle, at the base where you recruit the new Rosemary's Fate recruits. We also have new effect music! For now it is only playing when you use a new Rosemary's Fate effect. New effects will be added later on in development! NOTE: ~The Battle and Boarding Music will probably not be in this update, because it needs to be re-recorded.~ Don't have the Rosemary's Fate Story. Or don't want to play it? If you don't have the Rosemary's Fate Story, you won't be able to play it when you recruit the Rosemary's Fate class. But it can still be accessed by finding the Super Research button, and selecting the "Story" category on the bottom right. In the same way as Rosemary's Fate, you need the Resident Evil 5 Remake (for the story content), and Rosemary's Fate will play along with the story, so you will have an easier time. New features, new challenges. You can now switch your classes! You will start out as a Farmer, and have a set amount of experience to switch to another class. To switch classes, press Select, then use the + button on the left to choose a new class. New classes will appear on the bottom left when you switch classes. When you switch classes, you will receive a new ability. All new abilities will be added in this update. There will be several benefits to switching your classes. You will be able to switch classes 3 times, so be sure to switch your classes often, so you can get all your new abilities and the class features, while not missing any new abilities. You can switch to more than one class, as long as you have reached the previous level cap
