Falls are a frequent and important problem that arises in old age. The reasons for falling are often multifaceted, and both environmental and individual risk factors are involved. Several studies have shown that more than 30% of older adults fall at least once a year. Among those who fall, fear of falling is common, and can precede the actual fall. Fear of falling is more frequent in subjects with a history of falling. It influences a subject's self-perception and daily function, and is linked with limitations on their physical activity and increased health costs. A better understanding of this phenomenon is essential to ensure that those at risk receive appropriate preventive advice and effective interventions. John Dyer (English politician) John Dyer (fl. 1434) was an English politician and landowner. Dyer was elected knight of the shire (MP) for Worcestershire in April 1434. On-line capillary electrophoresis (on-line CE) using a semi-micro system was developed and used to obtain both pharmacokinetic and pharmacodynamic data of ergovaline (EVAL) in rats. The method was validated for the determination of EVAL (1-100 ng/ml) in plasma using a Capcellpak(TM) C(18) column and a 20-mM sodium borate (pH 9.5) with methanol (40:60, v/v) as the running buffer at -10 kV as a potential-of-time for the analysis. Plasma samples (200 microl) containing EVAL (0.2, 1.0 and 5.0 microg/ml) were injected directly into

the CE system and the total analysis time was less than 9 min. The within-day and between-day precisions were
