## **What's new in WICKED AEONS:**

**! 1998's B-grade sci-fi flick may be forgotten with the passage of time but it still retains a bit of horror movie appeal. It's a film that showcases the right amount of cheesy space jargon and special effects, but a little too much in the way of cheese. Victor (Chris Makepeace) and Lina (Mélanie Laurent) are shipmates aboard the ship Mindbender. Together they're tasked with going on a rescue mission to the planet Teena. Victor has a way of unlocking a door that has been locked for over a century and Lina, a poet who hid her identity as a Vorlog from the alien who mutilated her. Together they fight off a horde of Mutant Named Things (MNTs for short) in room after room. And they fight weirder things too, like a yellowing, soupy substance that doesn't exactly resemble water. The film has a behind-the-scenes story as well. Producer Robert Rodriguez, who was also in the process of making El Mariachi with Quentin Tarantino, was hired by Cannon Films to direct the B-movie. He brings some of his hardcore punk tendencies and punk rock faithfulness to work. Director Rodriguez sprinkles a lot of punk rock references in this flick, making the film stand out from the rest of the B-grade sci-fi flicks that seem to be popping up all too often in films that are portrayed as genre minded. When Lina and Victor are pushed against the wall by an advancing MNT, Victor utters the phrase "Mayan Death Wave," a reference to the rock band Slayer. It's a nod to Rodriguez's affinity for underground and hardcore punk and throughout the film it pops up many times. Upbeat punk of the 70s is constantly referenced too. Like the silhouette of Iggy Pop who is shown everywhere. And, of course, the swastika, a symbol that is second only to the cross to the Punk Rock Xtreme. The music is excellent too. It matches perfectly with the big space horror moments. It's full of the heavy-handed hip-hop and garage beats that made Rodriguez, with help from Igor Skogsberg who provides the soundtrack, such a big part of the popular A-HA from Loudness. After scoring this film, Skogsberg also**
