Could Not Be Located In Dynamic Link Library Kernel32.dll

. so i checked my windows\system32 folder for a KERNEL32.dll . But i could not find it there. . the crash came as 'Could Not Be Located In Dynamic Link Library . . The error message "Could not find the KERNEL32.dll library.

The procedure entry point SetDllDirectory could not be located in the dynamic link library KERNEL32.dll. The program could not start because the specified module could not be found." . Display Driver When reading to a display adapter that does not have a direct driver installed for a specific display adapter, an error occurs. When Windows starts a graphical program on an unsupported display adapter, this type of message occurs. Could Not Find The Windows Software Component A common problem occurs when you install a driver for a display adapter that is not recognized by Windows. You install a driver to support a display adapter and then try to install a software component that uses that display adapter. If the driver installed for your display adapter is not compatible with the software component you are trying to install, you receive an error message that states that the software component cannot be installed because the driver you installed conflicts with the software component. Solution: If you are trying to install a software component, you must ensure that the driver you installed is compatible with the software component you are installing. To solve this problem, follow these steps to ensure that the driver you installed is compatible with the software component you are trying to install: . 1. On the Start screen, type dxdiag into the Search field. . 2. In the list of results, click dxdiag. . 3. Click Start, and then point to Programs, then Accessories, then System Tools. . 4. In the System Tools window, double-click System Information. . 5. A System Information window opens. . 6. In the Hardware tab, click the Display adapters, and then click the yellow exclamation mark to expand the list. . 7. Note the Graphics adapter that is identified as Not Installed. This graphic adapter is the display adapter that you need to install a driver for. If you want to install a driver for this adapter, you will need to do this and then proceed to step 10. . 8. Double-click the graphic adapter that is identified as Not Installed. . 9. In the Device Manager, click the 6d1f23a050
