Men are using desktop CAGW (carbon footprint) arguments to demean women and rationalize sexism. Mr. Gore has just made an excellent personal contribution by bringing light to an important example of the #MeToo phenomenon. Updated: March 3, 2018. You cannot download in bad quality. You must click play button to watch film. I've never tried this on the iPhone/iPad, so for now that's still impossible. The best I have is a web version which is better than nothing though. "Can only run as root user..." Yes, because it's designed to be ran as root. If you want it to be run as a normal user, you need to change the permissions on the ".outloud" directory to a non-root user. I'm very thankful for the info from this post. I'm trying to figure out how to make these apps listen to me (and others). After a few hours of playing around with it I have managed Â to get it to work. Still not perfect but good enough for me. I like the sound a lot and made a simple music player myself which is in the form of a simple script that communicates with 2 Plex servers. When I play an song that is also played from the plex servers (it's a little bit more complicated than that) the app can detect this and do a really simple "pause" when I play a song from the server. The script is available here: The script isn't perfect but it should be enough to get you started. I would like to think I'm not the only one who has a need for this.Q: Google App Engine: Geopoint to MapView I have a Google App Engine app which displays several markers on a map. When a user clicks
