I want the title of my figure to be an image I have in the same directory of my figure (i.e. it should be "fig1.png"). A: Using the cowplot package with the makefig function: `\documentclass{article} \usepackage{graphicx} \usepackage{cowplot} \begin{document} \begin{figure} \makefig{fig1} \end{figure} \end{document}` Where fig1 is: `\documentclass[border=1cm]{standalone} \usepackage{graphicx} \usepackage{cowplot} \begin{document} {\centering\includegraphics[width=.5\textwidth]{fig1}% {\centering\makefigbox[1cm]{\includegraphics[width=.5\textwidth]{fig1}}}} \end{document}` He turned down the role in the first series because, frankly, he didn't feel like he had anything to say about it. But the show's second series - starring Norman Reedus, Toni Collette and Gillian Anderson - is proving a little more relevant. In a chat with Rolling Stone, he talked about how the show has raised issues about the state of the war in Afghanistan and the political situation back home. "They want to see a character who is definitely in a place of a different environment, which is very Western. And it's very interesting, how you create a world in England. You create a world in the States and you realise that it's a completely different world. One that c6a93da74d
